SAFETY DATA SHEET

Based upon Regulation (EC) No 1907/2006, as amended by Regulation (EU) No 2015/830

MAINTENANCE SPRAY H1

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product name **Registration number REACH** Product type REACH

: MAINTENANCE SPRAY H1 : Not applicable (mixture)

: Mixture

1.2. Relevant identified uses of the substance or mixture and uses advised against

1.2.1 Relevant identified uses Lubricating grease

1.2.2 Uses advised against

No uses advised against known

1.3. Details of the supplier of the safety data sheet

Supplier of the safety data sheet

Novatio* Industrielaan 5B B-2250 Olen +32 14 25 76 40 **▲** +32 14 22 02 66 info@novatio.be *NOVATIO is a registered trademark of Novatech International N.V.

Manufacturer of the product

Novatech International N.V. Industrielaan 5B B-2250 Olen +32 14 85 97 37 **i ⊟** +32 14 85 97 38 info@novatech.be

1.4. Emergency telephone number

24h/24h (Telephone advice: English, French, German, Dutch) : +32 14 58 45 45 (BIG)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classified as dangerous according to the criteria of Regulation (EC) No 1272/2008

Class	Category	Hazard statements					
Aerosol		22: Extremely flammable aerosol.					
Aerosol	category 1	H229: Pressurised container: May burst if heated.					
Skin Irrit.	category 2	H315: Causes skin irritation.					
STOT SE	category 3	H336: May cause drowsiness or dizziness.					
Aquatic Chronic	category 2	H411: Toxic to aquatic life with long lasting effects.					

2.2. Label elements

Revision number: 0303

· · · · · · · · · · · · · · · · · · ·	• • • • • • • • • • • • • • • • • • •		
Contains: distillates	petroleum), hydrotreated light.		
Signal word	Danger		
H-statements			
H222	Extremely flammable aerosol.		
H229	Pressurised container: May burst if heated.		
H315	Causes skin irritation.		
H336	May cause drowsiness or dizziness.		
H411	Toxic to aquatic life with long lasting effects.		
P-statements			
P210	Keep away from heat, hot surfaces, sparks, op	en flames and other ignition sources. No smoking.	
P211	Do not spray on an open flame or other ignition	on source.

P251 P280 P304 + P340 P410 + P412 Do not pierce or burn, even after use. Wear protective gloves, protective clothing and eye protection/face protection.

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

Protect from sunlight. Do not expose to temperatures exceeding 50 °C/ 122°F.

2.3. Other hazards

Gas/vapour spreads at floor level: ignition hazard

SECTION 3: Composition/information on ingredients

3.1. Substances

Not applicable

3.2. Mixtures

Name REACH Registration No	CAS No EC No	Conc. (C)	Classification according to CLP	Note	Remark

(1) For H-statements in full: see heading 16

(2) Substance with a Community workplace exposure limit

(6) Enumerated in Annex VI of Regulation (EC) No. 1272/2008 but the classification has been adapted after evaluation of available test data

(10) Subject to restrictions of Annex XVII of Regulation (EC) No. 1907/2006

(21) 1,3-butadiene <0.1%

SECTION 4: First aid measures

4.1. Description of first aid measures

General:

Observe (own) safety. If possible, approach victim and check vital functions. In case of injury and/or intoxication, call the European emergency number 112. Treat symptoms starting with most life-threatening injuries and disorders. Keep victim under observation, possibility of delayed symptoms.

After inhalation:

Remove victim into fresh air. In case of respiratory problems, consult a doctor/medical service.

After skin contact:

If possible, wipe up/dry remove chemical. Then rinse/shower immediately with (lukewarm) water. If irritation persists, consult a doctor/medical service.

After eye contact:

Rinse immediately with (lukewarm) water. Remove contact lenses, if present and easy to do. Continue rinsing. If irritation persists, consult a doctor/medical service.

After ingestion:

Rinse mouth with water. If you feel unwell, consult a doctor/medical service. Do not wait for symptoms to occur to consult Poison Center.

4.2. Most important symptoms and effects, both acute and delayed

4.2.1 Acute symptoms After inhalation: Dizziness. Narcosis. After skin contact: Tingling/irritation of the skin. After eye contact: No effects known. After ingestion: No effects known. 4.2.2 Delayed symptoms No effects known.

4.3. Indication of any immediate medical attention and special treatment needed

If applicable and available it will be listed below.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Reason for revision: 4; 8; 15

Publication date: 2008-03-03 Date of revision: 2020-04-16

Product number: 45858

5.1.1 Suitable extinguishing media:

Small fire: Water, Quick-acting ABC powder extinguisher, Quick-acting BC powder extinguisher, Quick-acting CO2 extinguisher. Major fire: Quantities of water.

5.2. Special hazards arising from the substance or mixture

Upon combustion: CO and CO2 are formed. Pressurised container: May burst if heated.

5.3. Advice for firefighters

5.3.1 Instructions:

If exposed to fire cool the closed containers by spraying with water. Physical explosion risk: extinguish/cool from behind cover. Do not move the load if exposed to heat. After cooling: persistant risk of physical explosion. Take account of environmentally hazardous firefighting water. Use water moderately and if possible collect or contain it.

5.3.2 Special protective equipment for fire-fighters:

Gloves (EN 374). Protective goggles (EN 166). Head/neck protection. Protective clothing (EN 14605 or EN 13034). Heat/fire exposure: compressed air apparatus (EN 136 + EN 137).

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Stop engines and no smoking. No naked flames or sparks. Spark- and explosionproof appliances and lighting equipment.

6.1.1 Protective equipment for non-emergency personnel

See heading 8.2

6.1.2 Protective equipment for emergency responders

Gloves (EN 374). Protective goggles (EN 166). Head/neck protection. Protective clothing (EN 14605 or EN 13034). Suitable protective clothing

See heading 8.2

6.2. Environmental precautions

Dam up the liquid spill.

6.3. Methods and material for containment and cleaning up

Take up liquid spill into absorbent material. Scoop absorbed substance into closing containers. Carefully collect the spill/leftovers. Clean contaminated surfaces with an excess of water. Take collected spill to manufacturer/competent authority. Wash clothing and equipment after handling.

6.4. Reference to other sections

See heading 13.

SECTION 7: Handling and storage

The information in this section is a general description. If applicable and available, exposure scenarios are attached in annex. Always use the relevant exposure scenarios that correspond to your identified use.

7.1. Precautions for safe handling

Use spark-/explosionproof appliances and lighting system. Take precautions against electrostatic charges. Keep away from naked flames/heat. Keep away from ignition sources/sparks. Gas/vapour heavier than air at 20°C. Observe normal hygiene standards. Remove contaminated clothing immediately.

7.2. Conditions for safe storage, including any incompatibilities

7.2.1 Safe storage requirements:

Storage temperature: < 50 °C. Store in a cool area. Keep container in a well-ventilated place. Fireproof storeroom. Keep out of direct sunlight. Meet the legal requirements.

7.2.2 Keep away from:

Heat sources, ignition sources, oxidizing agents, (strong) acids, (strong) bases.

7.2.3 Suitable packaging material:

Aerosol.

7.2.4 Non suitable packaging material:

No data available

7.3. Specific end use(s)

If applicable and available, exposure scenarios are attached in annex. See information supplied by the manufacturer.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

8.1.1 Occupational exposure

a) Occupational exposure limit values

If limit values are applicable and available these will be listed below.

Belgium

Particle size	Not applicable (aerosol)	
Explosion limits	0.8 - 9.0 vol %	
Flammability	Extremely flammable aerosol.	
Log Kow	Not applicable (mixture)	
Dynamic viscosity	No data available in the literature	
Kinematic viscosity	No data available in the literature	
Melting point	No data available in the literature	
Boiling point	No data available in the literature	
Evaporation rate	No data available in the literature	
Relative vapour density	> 1	
Vapour pressure	No data available in the literature	
Solubility	Water ; insoluble	
Relative density	No data available in the literature	
Decomposition temperature	No data available in the literature	
Auto-ignition temperature	Not applicable (aerosol)	
Flash point	Not applicable (aerosol)	
Explosive properties	No chemical group associated with explosive properties	
Oxidising properties	No chemical group associated with oxidising properties	
рН	No data available in the literature	

9.2. Other information

No data available

SECTION 10: Stability and reactivity

10.1. Reactivity

May be ignited by sparks. Gas/vapour spreads at floor level: ignition hazard.

10.2. Chemical stability

Unstable on exposure to heat.

10.3. Possibility of hazardous reactions

No data available.

10.4. Conditions to avoid

Precautionary measures

Use spark-/explosionproof appliances and lighting system. Take precautions against electrostatic charges. Keep away from naked flames/heat. Keep away from ignition sources/sparks.

10.5. Incompatible materials

Oxidizing agents, (strong) acids, (strong) bases.

10.6. Hazardous decomposition products

Upon combustion: CO and CO2 are formed.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

11.1.1 Test results

Acute toxicity

MAINTENANCE SPRAY H1

No (test)data on the mixture available

Judgement is based on the relevant ingredients distillates (petroleum), hydrotreated light

Route of exposure	Parameter	Method	Value	Exposure time	Species	Value	Remark
						determination	
Oral	LD50	Equivalent to OECD	> 5000 mg/kg bw		Rat (male /	Read-across	
		420			female)		
Dermal	LD50	Equivalent to OECD	> 2000 mg/kg bw	24 h	Rabbit (male /	Read-across	
		402			female)		
Inhalation (vapours)	LC50	Equivalent to OECD	> 5.28 mg/l air	4 h	Rat (male /	Read-across	
		403			female)		

Conclusion

Not classified for acute toxicity

Corrosion/irritation

MAINTENANCE SPRAY H1

No (test)data on the mixture available Classification is based on the relevant ingredients

Reason for revision: 4; 8; 15

Route of exposure	e Result	Method	Exposure time	Time point	Species	Value	Remark
						determination	
Eye	Not irritating	EPA OTS 798.4500		24; 48; 72 hours	Rabbit	Experimental value	Single exposure
Skin	Irritating	US EPA	24 h	24; 72 hours	Rabbit	Read-across	

Conclusion

Causes skin irritation.

Not classified as irritating to the eyes

Not classified as irritating to the respiratory system

Respiratory or skin sensitisation

MAINTENANCE SPRAY H1

No (test)data on the mixture available

Judgement is based on the relevant ingredients

distillates ((petroleum	<u>), hyc</u>	<u>drotreated</u>	<u>light</u>

Route of exposure	Result	Method	Exposure time	Observation time	Species	Value determination	Remark
				point			
Skin	Not sensitizing	Equivalent to OECD	6 h	24; 48 hours	Guinea pig	Experimental value	
		406			(male)		

Conclusion

Not classified as sensitizing for skin

Not classified as sensitizing for inhalation

Specific target organ toxicity

MAINTENANCE SPRAY H1

No (test)data on the mixture available Classification is based on the relevant ingredients

<u>distillates</u>	(petroleum)), h	ydrotreated	l light

Route of exposure	Parameter	Method	Value	Organ	Effect	Exposure time	Species	Value determination
Oral	LOAEL		750 mg/kg bw/day	General	Systemic effects	10 weeks (daily) - 13 weeks (daily)	Rat (male)	Experimental value
Oral	LOAEL		1500 mg/kg bw/day	General	Weight reduction	21 weeks (daily)	Rat (female)	Experimental value
Dermal	LOAEL	Equivalent to OECD 410	0.01 ml/kg bw	Skin		4 weeks (6h / day, 5 days / week)	Rat (male / female)	Experimental value
Inhalation (vapours)	LOAEL	Equivalent to OECD 413	500 mg/m ³ air	General	Body weight, organ weight, food consumption	90 days (continuous)	Rat (male)	Experimental value
Inhalation (vapours)	NOAEL	Equivalent to OECD 413	≥ 1000 mg/m³ air	General	Overall effects	90 days (continuous)	Rat (female)	Experimental value
Inhalation			STOT SE cat.3		Drowsiness, dizziness			Literature study

Conclusion

May cause drowsiness or dizziness. Not classified for subchronic toxicity

Mutagenicity (in vitro)

MAINTENANCE SPRAY H1

No (test)data on the mixture available

Judgement is based on the relevant ingredients distillates (petroleum), hydrotreated light

Result	Method	Test substrate	Effect	Value determination	Remark
Negative		Mouse (lymphoma L5178Y cells)	No effect	Experimental value	
Negative		Chinese hamster ovary (CHO)	No effect	Experimental value	

Mutagenicity (in vivo)

MAINTENANCE SPRAY H1

No (test)data on the mixture available

Judgement is based on the relevant ingredients

Reason for revision: 4; 8; 15

<u>dis</u> t	distillates (petroleum), hydrotreated light						
	Result	Method	Exposure time	Test substrate	Organ	Value determination	
	0	Equivalent to OECD 478	8 weeks (6h / day, 5 days / week)	Mouse (male)	General	Experimental value	
	-0	Equivalent to OECD 475		Rat (male / female)	Organ	Experimental value	

Conclusion

Not classified for mutagenic or genotoxic toxicity

Carcinogenicity

MAINTENANCE SPRAY H1

No (test)data on the mixture available

Judgement is based on the relevant ingredients

distillates (petroleum), hydrotreated light

Route of	Parameter	Method	Value	Exposure time	Species	Effect	Organ	Value
exposure								determination
Dermal	LOAEL	Equivalent to OECD 451	250 mg/kg bw/day	103 weeks (5 days / week)	Mouse (male / female)	No effect		Experimental value

<u>Conclusion</u> Not classified for carcinogenicity

Reproductive toxicity

MAINTENANCE SPRAY H1

No (test)data on the mixture available

Judgement is based on the relevant ingredients distillates (petroleum), hydrotreated light

	Parameter	Method	Value	Exposure time	Species	Effect	- 0.	Value determination
Developmental toxicity	NOAEC	OECD 414	≥ 364 ppm	10 days (gestation, daily)	Rat (female)	No effect	Foetus	Experimental value
	NOAEL (P)	OECD 414	500 mg/kg bw/day	10 days (gestation, daily)	Rat (female)	Body weight reduction	General	Experimental value
	NOAEL (F1)	OECD 414	1000 mg/kg bw/day	10 days (gestation, daily)	Rat (male / female)	Reduced foetal bodyweights	Foetus	Experimental value
Effects on fertility	NOAEL (P)		≥ 3000 mg/kg bw/day	10 weeks (daily) - 13 weeks (daily)	Rat (male)	Weight changes	General	Experimental value
	NOAEL (P/F1)	Equivalent to OECD 421	≥ 494 mg/kg bw/day	34 days (continuous)	Rat (male / female)	No effect	General	Experimental value

<u>Conclusion</u> Not classified for reprotoxic or developmental toxicity

Toxicity other effects

MAINTENANCE SPRAY H1

No (test)data on the mixture available

Chronic effects from short and long-term exposure

MAINTENANCE SPRAY H1 No effects known.

SECTION 12: Ecological information

12.1. Toxicity

MAINTENANCE SPRAY H1 No (test)data on the mixture available Classification is based on the relevant ingredients

Reason for revision: 4; 8; 15

listillates (petroleum), hydrotreat	ed light							
	Parameter	Method	Value	Duration	Species		Fresh/salt water	Value determination
Acute toxicity fishes	LC50	OECD 203	2 mg/l - 5 mg/l	96 h	Oncorhynchus mykiss	Semi-static system	Fresh water	Experimental value; GLP
Acute toxicity crustacea	EC50	OECD 202	1.4 mg/l	48 h	Daphnia magna	Static system	Fresh water	Experimental value; GLP
Toxicity algae and other aquatic plants	EC50	OECD 201	1 mg/l - 3 mg/l	72 h	Pseudokirchneri ella subcapitata	Static system	Fresh water	Experimental value; GLP
	NOEL	OECD 201	1 mg/l	48 h	Pseudokirchneri ella subcapitata	Static system	Fresh water	Experimental value; GLP
Long-term toxicity aquatic crustacea	NOEL	Equivalent to OECD 211	0.48 mg/l	21 day(s)	Daphnia magna	Semi-static system	Fresh water	Experimental value; GLP

Conclusion

Toxic to aquatic life with long lasting effects.

12.2. Persistence and degradability

distillates (petroleum), hydrotreated light

Not classified as dangerous for the ozone layer (Regulation (EC) No 1005/2009)

distillates (petroleum), hydrotreated light

Groundwater Groundwater pollutant

Reason for revision: 4; 8; 15

SECTION 13: Disposal considerations

The information in this section is a general description. If applicable and available, exposure scenarios are attached in annex. Always use the relevant exposure scenarios that correspond to your identified use.

13.1. Waste treatment methods

13.1.1 Provisions relating to waste

European Union

Hazardous waste according to Directive 2008/98/EC, as amended by Regulation (EU) No 1357/2014 and Regulation (EU) No 2017/997. Waste material code (Directive 2008/98/EC, Decision 2000/0532/EC).

12 01 12* (wastes from shaping and physical and mechanical surface treatment of metals and plastics: spent waxes and fats). Depending on branch of industry and production process, also other waste codes may be applicable.

13.1.2 Disposal methods

Specific treatment. Remove waste in accordance with local and/or national regulations. Hazardous waste shall not be mixed together with other waste. Different types of hazardous waste shall not be mixed together if this may entail a risk of pollution or create problems for the further management of the waste. Hazardous waste shall be managed responsibly. All entities that store, transport or handle hazardous waste shall take the necessary measures to prevent risks of pollution or damage to people or animals. Do not discharge into drains or the environment. Dispose of at authorized waste collection point.

13.1.3 Packaging/Container

European Union

Waste material code packaging (Directive 2008/98/EC).

15 01 10* (packaging containing residues of or contaminated by dangerous substances).

European legislation:

VOC content Directive 2010/75/EU

	VOC content	Remark
[100 %	

Reason for revision: 4; 8; 15

REACH Annex XVII - Restriction

Contains component(s) subject to restrictions of Annex XVII of Regulation (EC) No 1907/2006: restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles

	Designation of the substance, of the group of substances or of the mixture	Conditions of restriction
distillates (petroleum), hydrotreated light	Liquid substances or mixtures fulfilling the criteria for any of the following hazard classes or categories set out in Annex I to Regulation (EC) No 1272/2008: (a) hazard classes 2.1 to 2.4, 2.6 and 2.7, 2.8 types A and B, 2.9, 2.10, 2.12, 2.13 categories 1 and 2, 2.14 categories 1 and 2, 2.15 types A to F; (b) hazard classes 3.1 to 3.6, 3.7 adverse effects on sexual function and fertility or on development, 3.8 effects other than narcotic effects, 3.9 and 3.10; (c) hazard class 4.1; (d) hazard class 5.1.	 Shall not be used in: ornamental articles intended to produce light or colour effects by means of different phases, for example in ornamental lamps and ashtrays, tricks and jokes, games for one or more participants, or any article intended to be used as such, even will ornamental aspects, Articles not complying with paragraph 1 shall not be placed on the market. Shall not be placed on the market if they contain a colouring agent, unless required for fiscal reasons, or perfume, or both, if they: can be used as fuel in decorative oil lamps for supply to the general public, and,
distillates (petroleum), hydrotreated light	Substances classified as flammable gases category 1 or 2, flammable liquids categories 1, 2 or 3, flammable solids category 1 or 2, substances and mixtures which, in contact with water, emit flammable gases, category 1, 2 or 3, pyrophoric liquids category 1 or pyrophoric solids category 1, regardless of whether they appear in Part 3 of Annex VI to that Regulation or not.	 Shall not be used, as substance or as mixtures in aerosol dispensers where these aerosol dispensers are intended for supply to the general public for entertainment and decorative purposes such as the following: metallic glitter intended mainly for decoration, artificial snow and frost, "whoopee" cushions, silly string aerosols, mitation excrement, horns for parties, decorative flakes and foams, artificial cobwebs, stink bombs. Without prejudice to the application of other Community provisions on the classificatic packaging and labelling of substances, suppliers shall ensure before the placing on the market that the packaging of aerosol dispensers referred to above is marked visibly, legib and indelibly with: "For professional users only". By way of derogation, paragraphs 1 and 2 shall not apply to the aerosol dispensers referred to Article 8 (1a) of Council Directive 75/ 324/EEC. The aerosol dispensers referred to in paragraphs 1 and 2 shall not be placed on the market unless they conform to the requirements indicated.

The information in this safety data sheet is based on data and samples provided to BIG. The sheet was written to the best of our ability and according to the state of knowledge at that time. The safety data sheet only constitutes a guideline for the safe handling, use, consumption, storage, transport and disposal of the substances/preparations/mixtures mentioned under point 1. New safety data sheets are written from time to time. Only the most recent versions may be used. Unless indicated otherwise word for word on the safety data sheet, the information does not apply to substances/preparations/mixtures in purer form, mixed with other substances or in processes. The safety data sheet offers no quality specification for the substances/preparations/mixtures in question. Compliance with the instructions in this safety data sheet does not release the user from the obligation to take all measures dictated by common sense, regulations and recommendations or which are necessary and/or useful based on the real applicable circumstances. BIG does not guarantee the accuracy or exhaustiveness of the information provided and cannot be held liable for any changes by third parties. This safety data sheet is only to be used within the European Union, Switzerland, Iceland, Norway and Liechtenstein. Any use outside of this area is at your own risk. Use of this safety data sheet is subject to the licence and liability limiting conditions as stated in your BIG licence agreement or when this is failing the general conditions of BIG. All intellectual property rights to this sheet are the property of BIG and its distribution and reproduction are limited. Consult the mentioned agreement/conditions for details.
